## Success! The Tenth Annual GeoElections User's Conference

Get ready, get set, and wait for the moment. The major topic that dominated the conference was the schedule of activities that will impact the elections office related to redistricting. Catherine Clark McCully, Chief of US Census Redistricting Data Office spoke about the release of the P.L. 94-171 TIGER/Line Shape Files and fielded questions related to Census operations and redistricting. Scott Miller, GIS/Tabulation Supervisor for the Clay County, FL Office of the Supervisor of Elections, provided a time line of elections activities commencing with the 2012 Presidential election listing the events and tasks back to November 2011.

With the first volley loaded below, our elections officials are now off to the tasks required to incorporate the numerous 2012 changes to our legislative districts both state and local into their voter registration systems:

- April 30, 2012: U.S. Department of Justice OKs State House, Senate, and Congressional plans
- June 4 - 8, 2012: Qualifying for state and federal offices
- August 14, 2012: Primary election (approximately June 24, VBM ballots must be postmarked)
- November 6, 2012: General election

The general consensus of the attendees agreed a GeoElections® project should be created at the earliest, enhanced, and synchronized with the respective VR database and put into use allowing the user to retire their 2000 project. They should work with the product of the legislative redistricting effort once released for public review, develop alternative plans, and be prepared to implement upon approval from DOJ.

**WebElections®** is easy to use for both the staff setting the system up for election night and the people watching the results as they are posted. Colors, fonts, titles, special messages, and more are controlled by your staff. Watch for a version of **WebElections®** that will work with counties who do not have **GeoElections®** but do have maps from other GIS sources that can be used with **WebElections®**.

## ICW Team Wins 6<sup>th</sup> Time in 8 Annual Races

Saturday, October, 15, 2011 Ken and Rob Tozier raced as father and son 5 miles on the Hillsborough River to bring a 1<sup>st</sup> place victory to the ICW string of wins. ICW has proudly supported the City of Temple Terrace Annual Race for 8 years finishing in 1<sup>st</sup> place 6 times, 2<sup>nd</sup>, and 3<sup>rd</sup> once each. Canoes both one and two man as well as kayaks raced the 5 miles but only the one with the flag came in first. In a blaze of speed, Ken and Rob skimmed across the finish line turning the field upside down. Press onward team, press on.
